

# Specialty Products Company™

## Now Available Locally in Northern Colorado, Contract Waterjet Capabilities

Specialty Products Company, ISO/TS certified, and the world leader in automotive alignment parts, is now offering contract cutting services in Northern Colorado, utilizing one of the most technically advanced waterjet cutters in the industry. From single 'one-off' samples, to larger production jobs, Specialty Products can be your waterjet source. We maintain the latest software to communicate directly with our cutter, and are capable of translating all CAD file types.

### Waterjet Cutting features:

- Burr-Free Cut
- Complex Shapes
- Cuts thicknesses up to 6" depending on material
- Direct input of DXF and DWG drawings
- Large Cutting Bed: 6' x 12'
- Maintains material integrity by eliminating material distortion or degradation such as burning, crushing, chipping and fracturing
- Minimal material waste which keeps your costs low
- No heat-Related distortion to material
- Eliminates tooling costs or post-machining work - Part edges are smooth & finished
- Non-Toxic
- Precise Cutting with high degree of accuracies up to +/- .005 through the use of CNC robotics
- Suited to a wide range of materials
- Superior edge quality

### Benefits of Waterjet Cutting

Our capabilities not only include the state-of-the-art machine, but we also provide the technological know-how to accomplish the most cost-effective solution to your problem. We know the questions to ask: What will the part ultimately be used for? What other processes are you planning? Will there be a part-on-part contact? Will it be a net-fit inlay? By finding out, up front, your needs and matching them to our capabilities, we can produce cost effective, quality controlled pieces for your shop.

### If you need to cut...

- complex shapes without the need for expensive templates, fixtures and stamping dies...*
- specialty materials such as titanium, stone, glass or composites...*
- quantities which can range from one to one thousand pieces...*
- no heat distortion...*
- and still get a finished look without extra finishing operations...*

### For more information contact...

Don Campbell at 970-535-4065, Monday - Friday 7:00 am - 3:30 pm. Or after 3:30 pm contact Mina Cox at our main Longmont location: 303-772-2103. When you contract with Specialty Products for your waterjet needs, you can count on quick turnaround times, along with quality control and fair pricing.
